SIR LOUIS DAVIES

Charlottetown, P. E. I., Sept. 18.—The friends of Sir Louis Davies have presented him with a handsome portrait of himself, to mark his elevation to the Supreme court bench.

Influx Of Settlers

Homestead Entries in Northwest Show Extraordinary Increase This Year.

For Past Two Months Number Is Greatest in History of Country.

Colonel Evans to Resume Command of Mounted Rifles at Winnipeg.

From Our Own Correspondent.

Ottawa, Sept. 18.—The influx of settlers into the Northwest continues to increase. The July homestead entries numbered 2,623, or 1,702 greater than the same month last year. For August the entries were 1,922, or 1,154 in excess of the same period in 1901. The total increase for the two months as compared with the same time last year was 2,856. This is unprecedented in the history of the country. Most of the new comers are from the United States.

With the beginning of October, Col. Evans, C. B., resumes command of the Canadian Mounted Rifles at Winnipeg, and of the militia force generally throughout Manitoba and the Northwest Territories. He will continue the organization of mounted rifle squadrons in the centres of population all through this Western country, a work which he began before going to South Africa.

LETTERS BY WIRE.

Electric Transmission of Mail Among the Possibilities.

The Italian Minister of Posts and Telegraphs, Signor Galimberti, and the leading officials of his department have examined a plan submitted by an engineer named Piscicelli for the establishment of a system of electrical delivery of the mails, by which letters are transmitted in aluminum boxes along overhead wires at the rate of 248 miles an hour. A commission has been appointed to report upon this system before instituting experiments between Rome and Naples. Between these two points the inventor claims that he can deliver letters in 25 minutes, while the time to send mail from Rome to Paris by this system, Signor Piscicelli says, could be reduced to five hours.

MR. TARTE AND THE GLOBE

Grit Organ Says Minister of Public Works Lost Them Many Seats.

From Our Own Correspondent.

Toronto, Sept. 18.—The Globe replying to Mr. Tarte charges that many seats in Ontario were lost at the last election by the "attitude of Mr. Tarte," which was the sole issue in the campaign in this province, thousands of articles having been circulated charging him with being anti-British. The Globe proceeds: "Mr. Tarte ought to be the last person in the world to sneer at the Globe or at the campaign for winning a victory under these circumstances. They had before them an easy road to popularity, to repudiate Mr. Tarte and all his works. It is an easy thing to make progress when swimming with instead of against the tides of prejudice and passion. We think Liberals took an unpopular stand, but a right stand, and a manly stand. The campaign against the government was a most incendiary and mischievous one, and was not justified by anything Mr. Tarte had said or done."

KILLED THE ROBBER.

Plucky Telegraph Operator Saves the Station.

Port City, Pa., Sept. 18.—Carl Reichard, operator on the Allegheny Valley road at this place shot and killed a man who attempted to rob the station today. The burglar shot pointblank at him and the bullet clipped off part of his ear, but he got his revolver and fired two shots, both bullets striking the burglar, one entering the roof of his mouth and killing him instantly. Two companions who remained outside on guard escaped and have not been captured. The dead man was identified as Charles Andrews, who was recently released from the Western penitentiary.

FOUND MURDERED.

Body of Woman Discovered in New York Canal.

New York, Sept. 18.—The nude body of a young woman was found in the Hudson river near Jersey City today, and the police believe that the discovery has brought to light a murder. The police found around the waist of the body a long hitching strap and a watch. The weight was stamped "Cover Manufacturing Company," and the police think this may prove an important clue. A man was identified as a stab wound about six inches long, was found in the abdomen.

WANTED IN THE STATES.

Joe Beef's Son Charged With Forgery in Kansas City.

Montreal, Sept. 18.—Harry G. McKee, aged 23, was arrested here today morning on telegraph advice from Kansas City, where he is wanted for obtaining \$350 from Theodore Rush by means of forgery and false pretences. McKee was formerly a resident of this city, where his father is a resident. He was identified as a stab wound about six inches long, was found in the abdomen.

John B. Feller, of Plattsburg, N. Y., is wanted here charged with stealing watches and jewelry from different Plattsburg people, valued at a thousand dollars. Feller, who was attached to the bank of one of the regiments at Fort Ethan Allen, is charged there with desertion.

Special sale of men's neckties at the Army & Navy Clothing Store, today and tomorrow.

U. S. PACIFIC CABLE.

Expects Communication With Hawaii by End of the Year.

London, Sept. 18.—The submarine telegraph cable which is to join the United States and Hawaii, is the first link in the system to the Philippines, has been completed. It is now on board the cable steamer Silvertown, lying in the Thames. She will sail September 20 for San Francisco, whence she will immediately begin laying the cable to Honolulu. It is expected she will reach San Francisco early in December. The cable is wound round three enormous spools, each 30 feet in diameter. Its total length is 2,431 miles. The strands are one to three inches thick. The total weight of the cable is 10,000 tons. Vice-President Ward, of the Commercial Pacific Cable Co., who will sail for New York on the White Star line steamship Celtic tomorrow, said to a representative of the Associated Press: "The shipment of the cable gives the assurance that the United States may look forward to being in telegraphic communication with Honolulu by the end of this year. The manufacture of the remaining three sections to the Philippines is proceeding at the rate of 50 miles a day, and I am confident they will be finished by March, and laid during the next summer. Two cable steamers, the Colombia and Anglin will lay the line beyond Hawaii. Pending the arrival of the Silvertown, work will be pushed on the underground cable approaches at San Francisco and Honolulu, each seven miles long. It will take the Silvertown two weeks to unwind her spools between San Francisco and Honolulu. The service will begin immediately thereafter."

Atlin Man Kills Himself

Tries Burning First and Then Finishes Life in Pine Creek.

Congregational Delegates in Vancouver-Farewell to Rev. Dr. Mc. Laren

From Our Own Correspondent.

Vancouver, Sept. 18.—Word has reached here from Atlin that J. Joyce, an hotel man, set fire to his hotel, cut his throat and jumped into Pine creek, with fatal results. He intended to be burned in his house, but could not stand the suffering.

Alex. Smith, a Seattle business man, fell from a cliff while shooting grouse at Toba Inlet, near Higgings' lumber camp, and was instantly killed. When his remains were picked up he had a head grouse in one hand and a gun in the other.

Delegates of the Congregational church of the United Kingdom arrived in Vancouver yesterday, and last night attended a meeting of the Congregational church. The members of the delegation are Rev. A. Rowland, A. Crouch, London; Rev. A. D. Jones, of Loughmouth, England; Edward Smith, of Bewdley, and Dr. Lambert, of Lincoln.

F. G. Geddes, brother of Percy Geddes, of this city, died at the hospital yesterday, after a lingering illness.

The Rev. Dr. McLaren made good-bye to his congregation last evening, before taking up his work in the East. Many ministers were present and spoke feelingly of Dr. McLaren's departure. The congregation presented to their departing pastor a handsome souvenir. On Monday Cascade Lodge, A. F. & A. M., presented Most Worshipful Bro. Dr. McLaren with a handsome traveling case. A man calling himself A. G. Brown was arrested by the provincial police today, charged with forgery. Brown is said to have presented an order for \$50 on the ground that he was authorized to do so as master of the ship Albania.

The Vancouver Engineering company has secured a sub-contract for iron for the Westminster bridge substructure to Armstrong & Morrison.

NANAIMO SHOW.

Entries Numerous and Prospects Promise Fine Display.

Nanaimo, Sept. 18.—(Special)—The prospects are good for a successful agricultural show, the entries being numerous. There are over 80 benches in the bench division and good displays and close competitions are promised.

TWO DAILY TRAINS.

C. P. R. May Double Service to Coast Next Year.

Montreal, Sept. 18.—The Canadian Pacific are considering the advisability of putting on two daily trains to the coast next year. The Imperial Limited, which ran three times a week this year, is now so well patronized that it may be made a daily train next summer.

LORD STRATHCONA.

Understood That He Will Visit the King at Balmoral.

Toronto, Sept. 18.—The Telegram's London cable says: Lord Strathcona paid a hurried visit to London yesterday, arriving in the morning and returning to Glenora in the evening. It is reported in exclusive circles that he has been invited to visit the King at Balmoral. Sir Wilfrid Laurier is now visiting at the Hotel National, Geneva, Switzerland.

NEXT MONTH.

Russian Minister Promises Southern Manchuria Will Be Restored.

Peking, Sept. 18.—The Russian minister here, Paul Lesser, announced today that Russia was determined to restore Southern Manchuria to the Liu river, and the Chinese Government had agreed to the railway to the Chinese on October 18. He explained that an earlier date was impossible on account of the destruction of a bridge which had prevented the withdrawal of the troops.

EXTENSIVE THEFTS.

U. S. Marine Accused of Wholesale Robberies.

New York, Sept. 18.—J. E. Weikman, a private of the marine corps at the Brooklyn navy yards, was arrested today, accused of a series of robberies in the marine barracks. A trunk said to be his was examined, and it is alleged that he was carrying a large quantity of jewelry, Chinese and Japanese curios, rare porcelains and a great variety of Oriental goods were found in it amounting to an estimated value of \$50,000. Weikman declares he is innocent.

Laying The Cable

Colonia Successfully Makes Fast Shore End At Bamfield Creek.

And Starts on Her Long Voyage to the Fanning Islands.

The Laying of the All-British Pacific Line Successfully Inaugurated.

From Our Own Correspondent.

Bamfield, B. C., Sept. 18.—At 12 noon today the big cable ship Colonia, belonging to the Telegraph Construction & Maintenance company landed the shore end of the Pacific cable, and at 2 p. m. everything was snug and with a parting salute to the officials left ashore, she departed on her long paying out voyage to Fanning Island. The day was dark, showery, and calm, and everything passed off without the slightest hitch. The Colonia lay some four hundred yards from the shore, a long endless rope being stretched between shore and ship. A big swivel block fast to a stump served for the rope to play its part, which was to conduct the end of the big cable to the cable house. Large barrels attached at intervals as the cable left the ship kept it close to the surface of the water, and when the end was safely ashore the barrels were cut adrift and the cable sank to the bottom, where it will remain to serve its useful purpose.

Nearly all the residents in the vicinity were gathered to watch this historical event. Mr. Holland, the contractor, who is erecting the buildings; Mr. Pearce, the architect; Mr. McLachlan, the new superintendent of the Bamfield station looked after the comfort of their visitors.

The site of the cable station is a most beautiful and commanding one at the entrance to Barkley Sound, and in time it will make a delightful home for the considerable staff which will be located here to handle the trans-Pacific business. Several officials of the construction company have been left here during the laying of the cable. Constant communication will be had with the ship as she proceeds on her long voyage. Amongst those who witnessed the laying of the cable were Messrs. J. Wilson, J. Christie and T. D. Conway of the C. P. R. company's telegraph, who will all return on the Queen City.

A MILITARY DENTAL CORPS

Dominion Association Will Ask Dominion Government to Appoint One.

Montreal, Sept. 18.—The Canadian Dental Association wound up their convention by electing the following officers: President, Dr. J. B. Wilmett, Toronto; vice-president, Dr. Dubian, Montreal; secretary, Dr. W. G. Trotter, Toronto; treasurer, Dr. F. A. Goudso, St. John, N. B.; registrar, Dr. S. W. McInnis, Brandon, Man. Executive: Dr. Cowan, Regina; S. Woodbury, Halifax; Dr. Bagnell, Charlottetown. The next meeting will be held in Toronto. A committee was appointed to wait upon the Dominion government to secure the formation of an army dental corps, the members to have the same rank as army surgeons. The question of securing legislation enabling dentists qualified to practise in one province to practise in another, was left over until next year. A committee is to be appointed by each provincial association to discuss the matter.

The Canadian Medical Association today passed a resolution calling upon the Dominion government to create a separate department of public health. London, Ontario, was selected as the place of meeting for the association next year. Dr. L. S. McKee, of Vancouver, was elected local secretary of that province.

RIPE OLD AGE.

Thomas Shaw Lived for a Hundred and Four Years.

Halifax, Sept. 18.—Thomas Shaw, the oldest Nova Scotia veteran, is dead, aged 104 years.

MR. BORDEN.

Date of His Meetings in Manitoba Changed.

Winnipeg, Man., Sept. 18.—(Special).—The itinerary of Mr. Borden's meetings in Manitoba has been changed. The position leader speaks in Winnipeg on October 13 instead of the 8th.

MISSING THE POLE.

Lieutenant Peary Did Not Find It in His Travels.

North Sydney, C.B., Sept. 18.—Lieut. Peary arrived from the frozen north on board the Windward at 8:15 this morning. Dr. Dieckmans was also aboard. Lieut. Peary did not discover the Pole, but on his last dash made important discoveries.

"My last dash for the Pole was most successful. I was farther north than 83°27, my previous record," said Lieut. Peary, as he stepped from the steamer this morning. Mrs. Peary is recovering from a fortnight's illness. Lieut. Peary is well.

EXPLORERS RETURNING.

They Visited King of Abyssinia and Were Well Received.

London, Sept. 18.—Wm. Fitzhugh Whithouse, of Newport, R. I., who started from London, February 1, accompanied by Lord Hilditch on an exploration trip to the Upper Nile has returned here. The party covered ground hitherto unvisited by Europeans. They found a people generally friendly. The expedition revisited the so-called "Devil infested zone" of Walamo. While at Adis Ababa, capital of Abyssinia, Emperor Menelik II. received the explorers at a banquet.

FOX'S, 78 Gov't St.

CLOVER HAY

Yes, it's new and something good. Why feed rubbish when the best cost no more?

The Dominion Co-Operative Home Building Association.

Our proposition is simple, safe and sure. The only one by which you may purchase a home without capital, without interest, without increasing present expenses. Any man who pays rent and refuses our offer is not honest with himself or his family, because by paying rent he is throwing away the money which will supply a home free from incumbrance. When you pay your first instalment of \$2.50 you have paid \$2.00 on the purchase of your home, 50c. to the reserve fund, which is your protection. If misfortune overtakes you in sickness, loss of work, etc., and you have paid 50c. toward the expenses of managing the loss of the association. Full particulars at

19 Broad Street.

JUST RECEIVED

SOUTHERN CROSS WRECKED.

Missionary Steamer in South Seas Lost.

San Francisco, Sept. 18.—The schooner Southern Cross, belonging to the London Missionary Society, was wrecked on September 1 on the French Island of Tahiti, near the harbor of Papeete. There were a number of passengers on board, but all were rescued.

DIPLOMATIC RISES.

Sir Claud Macdonald to Be Made Ambassador.

London, Sept. 18.—It is said that the Japanese minister to Great Britain, Baron Hashimoto, will shortly be raised to the rank of ambassador, and that similar rank will be conferred upon Sir Claud Macdonald, British minister to Japan.

TOBACCO WAR.

Imperial Company Say They Are Not Combining.

London, Sept. 18.—Officials of the Imperial Tobacco Company declare that they have not heard of any proposition to combine with the American Tobacco Company. The predictions to this end, published in the Westminster Gazette today, come from an indefinite source and are not reliable.

SOUTH AFRICAN NATIVES.

Report That Zulus Are Becoming Un-Easy.

Durban, Sept. 18.—Uneasiness is felt here in consequence of reports of unrest in Zululand, where trouble appears to be imminent. The Times of Natal says the feeling in Zululand between Boers and natives, demands active government intervention. Dinizulu is regaining his prestige and is regarded as dangerous. The Zulus still have the arms with which they were provided during the war. Since the Zulus were killed by the Boers in the Vryheid district, the Boers have been feeling that they have prevailed among the natives.

SHAMROCK III.

Plans For Her Building Are Well Forward.

London, Sept. 18.—Confirming the despatches of the Associated Press on the subject, the Yachting World today says: "All the plans for the Shamrock III. are in a most forward state, and it is certain that she will be ready for launching much earlier than either of Sir Thomas Lipton's previous challenges. The new steel racing schooner will be especially made with a view of securing minimum weight and maximum strength and reliability. Although she will not be nearly such a costly vessel as her predecessors, her expense will be spared which will in any way increase her chances of success."

VALUABLE TRAINING.

How Mrs. Johnson Saved an Injured Man's Life.

Nelson, B. C., Sept. 18.—(Special.)—This afternoon at 3 o'clock as the train from Slocan City, Nelson, came around a curve near Bonington Falls, a man was seen lying asleep across the rails. The engineer was unable to stop in time, and the man had both legs cut off. Mrs. A. L. Johnson, of Nelson, who had taken a hospital training course before her marriage, was on the train, and took up the man in time to save the man from bleeding to death, and he was brought on to Nelson where his injuries were attended to. It is not known as yet whether he will survive. His name is Albert Morien, a Swede, aged 40, a sectionman. He was drunk at the time. Seven hundred miners from Lonsland came over to Nelson on an excursion today, the men from Lehigh, Port Hope, Kootenay, War Eagle and Centre Star participating. A long list of sports was carried through, including races, tennis, polo, putting shot, etc. A baseball match was played between Northport and Lonsland teams, Rossland winning by 8 to 5.

ATTACK ON CHENG TU FU.

Further Particulars of the Fight With Boxers.

Peking, Sept. 18.—The Boxer attack on Cheng Tu Fu, capital of Sze Chuen province, in which 1,500 Boxers were ineffective attempts to take the city, began September 15, when the rebels endeavored to enter the city, and a conflict ensued. The attacking party was driven back, and the gates of the city were closed and guarded by troops. Soldiers quelled the disorder within the city. Fourteen Boxer leaders and servants were executed. A new vice-regent has been appointed, and is now on his way to Chang Tu Fu to assume charge.

THE CHINESE MINISTER TO CHINA.

Mr. Conger, and the French Minister, are expected to leave for Peking.

Washington, Sept. 18.—A letter from Minister Conger transmits two imperial orders ordering several changes among the provincial officials as a result of the disturbances. The most important of the changes, Minister Conger says, is the removal of Kwai Chun as viceroy of Sze Chuen province, and the appointment of Chen Chun as his successor. The minister says, was doubtless made by the Chinese government because of the failure of Kwai Chun to suppress the recent serious disturbances in the territory under his jurisdiction. The minister further said that it would take three months for the new appointee to reach his post, and added that it was hoped that even the news of his coming would tend to impress the disturbing element in the province.

TEEN CHUN HSIAN, GOVERNOR OF SHAN SI PROVINCE.

He was appointed governor of Shan Si province.

Teen Chun Hsian, up to a short time ago, when he was appointed governor of Shan Si province, was governor of Shan Si province. The governorship of Shan Si province was now falling to Li Hsiang Jui, who has been governor of Kiang Si province and was formerly Chinese minister to Japan. Li will be succeeded in turn by Li Keng Shih Kwei Chua. The deposed governor of Sze Chuen, Chao Erh Hsun has been appointed temporary governor of Shan Si province.

IF EVER THERE WAS A SPECIFIC FOR ANY COMPLAINT, THEN CARTER'S LITTLE LIVER PILLS ARE A SPECIFIC FOR A COLD HEADACHE, AND EVERY WOMAN SHOULD KNOW THIS. ONLY ONE PILL DOES THE TRICK.

TRADES AND LABOR CONGRESS.

Election of Officers—Compulsory Arbitration Condemned.

Berlin, Ont., Sept. 18.—(Special.)—The Trades and Labor Congress committee reported today that Phoenix, B. C., council's charges against Ralph Smith were unfounded. The committee also reported that compulsory arbitration was condemned by a vote of 78 to 12. Mr. Ralph Smith was re-nominated for president, but declined the honor. The election results are as follows: President, John A. Bennett; vice-president, J. B. Mackay; secretary, P. M. Draper; typographical union, Ottawa (re-elected by acclamation); Executive, British Columbia: Vice-President, J. D. McNeven; committee, T. H. Dwyer, Victoria; J. H. Watson, Geo. Bartley, Vancouver; Manitoba: Vice-president, A. W. Puttee; Ontario: Vice-president, Samuel Moore, Toronto.

LORD SALISBURY ILL.

Aged Statesman Confined to His Bed in Switzerland.

London, Sept. 18.—The Times this morning announces the apparent serious illness of Lord Salisbury. The Times says: "We much regret to say that Lord Salisbury, who is present in Switzerland, is ill and confined to his bed. An English and a Swiss doctor have been attending him, and it is understood that Lord Salisbury's attendance in London has been sent for." Lord Salisbury has been touring the health resorts of Southern Europe for several weeks. Visitors to Switzerland frequently have seen him riding a bicycle. He always appeared to be in good health, and attracted only very little attention. For some time past his health has been gradually failing, and the announcement of the Times, though carefully worded, causes much alarm.

ROMANIAN JEWS.

Great Britain Taking Action on Their Behalf.

Berlin, Sept. 18.—The German foreign office has received a note from the British government inviting some action on the part of the signatories of the treaty of Commerce of 1878 regarding Romanian treatment of Jews. The British note is shorter than that of the United States on the same subject, but it pursues the same end. It is assumed here that Great Britain will take action on the subject, and that the United States will follow. The United States action is regarded as being quite within her rights in seeking the assistance of the signatories in preventing an influx of indigent immigrants which would be a serious and substantial grievance. These two notes will result in an exchange of views between the powers as to what action is feasible. In the meantime it is expected that Romania will take action on the subject.

ROMANIAN JEWS.

Great Britain Taking Action on Their Behalf.

Berlin, Sept. 18.—In a despatch from Bucharest, Romania, dated Sunday 14, the correspondent of the Daily Express says the emigration fever among the Jews of Romania still continues, and that within the last three months 4,000 Jews have left the country. "Tonight," he writes, "I have been told that a party of 350 left for Canada, and the United States, and small parties of Jews leave the larger towns of the country at almost daily intervals. Although the reason given by the emigrants for leaving is their inability to obtain work, the Jews steadily refuse to take up farm labor."

DISTINGUISHED VISITORS HERE

Welcomed at an Entertainment Given Last Night at Congregational Church.

At the Congregational church last night a number of distinguished English Congregationalists from England were given a welcome by their local churchmen. A social gathering was held in the church hall, and the evening was a musical program. The guests included Rev. Alfred Rowland, minister of the church, and Rev. J. D. Jones, pastor of Bournemouth Congregational church, and Dr. Lambert and Edward Smith, J. C. of Bowdoin College, were all seated on the platform, together with Rev. Mr. Blyth, who delivered an address welcoming the visitors. Rev. Lambert, who as did his fellow minister, spoke of establishing a closer relationship between the church of this country and that of England, is a most eloquent speaker. His address was a most eloquent and entertaining one. The entertainment was given by a piano solo by Mr. Sidney Talbot, after which the chairman, Mr. L. P. Duff, delivered a few remarks, and then Mr. A. T. Howard sang a tenor solo. Rev. Mr. Blyth welcomed the visitors, and Miss Snowcroft, who has a pleasing voice, sang a vocal solo. Dr. Lambert then delivered his address, and after Mr. Talbot had played another piano solo, Rev. J. D. Jones was heard, and a solo by Mr. Lambert brought the program to a close.

TEEN CHUN HSIAN, GOVERNOR OF SHAN SI PROVINCE.

He was appointed governor of Shan Si province.

Teen Chun Hsian, up to a short time ago, when he was appointed governor of Shan Si province, was governor of Shan Si province. The governorship of Shan Si province was now falling to Li Hsiang Jui, who has been governor of Kiang Si province and was formerly Chinese minister to Japan. Li will be succeeded in turn by Li Keng Shih Kwei Chua. The deposed governor of Sze Chuen, Chao Erh Hsun has been appointed temporary governor of Shan Si province.

IF EVER THERE WAS A SPECIFIC FOR ANY COMPLAINT, THEN CARTER'S LITTLE LIVER PILLS ARE A SPECIFIC FOR A COLD HEADACHE, AND EVERY WOMAN SHOULD KNOW THIS. ONLY ONE PILL DOES THE TRICK.

NOTICE.

Applications will be received by the Secretary up till noon the 25th September, for position of teacher of Public School, at Crofton. Salary Fifty Dollars. School to open October.

JOEL A. BROADWELL, Secretary.

Australia's

Prime Minister

Sir Edmund Barton Will Arrive in Victoria This Morning.

Banquet at the Driard Tonight

Brief Sketch of His Life.

Sir Edmund Barton, premier of the Australian Commonwealth, will arrive in Victoria about 10 o'clock this morning on the C. P. N. steamer "Edmund Barton," which was placed at the disposal of Sir Edmund and his party, by the provincial government, whose guest he will be during his stay in the capital. The Australian statesman was entertained at a dinner last evening by the Vancouver Board of Trade, at which about 80 representative citizens were present. Other guests at the Vancouver Board of Trade were: Sir John Forrest, Sir James Fairfax, Austin Chapman, M. L. A., and Rear-Admiral Bickerton, accompanied by Sir Edmund's wife, Mrs. W. Wilson, representing the Melbourne Argus and the Manchester Guardian.

Immediately after the banquet at Vancouver, Sir Edmund will return to the "Edmund Barton," which will sail for Victoria this morning. On his arrival here the visitor will be received by members of the government. His Worship Mayor Hayward, officers of the Board of Trade and other leading citizens will be driven to the parliament buildings (which he has expressed a special desire to see) and other places of interest in and about the city.

In the evening he will be entertained at a banquet at the Driard hotel, which will be held in the capital. The banquet will take place on Saturday night, and will be a most interesting and important occasion. Sir Edmund will be accompanied by his wife, Mrs. W. Wilson, and a number of other guests.

Biographical.

Mr. Barton is Australian born. He was born in Sydney, N. S. W., some five-and-fifty years ago. His parents were of the name of Barton, but his father's name was changed to Barton. His father was a successful business man, and his mother was a devoted wife and mother. Sir Edmund was educated at the Grammar school of which he was a member, and at the University of Sydney, where he graduated with honors, and subsequently took the degree of Master of Arts. Called to the bar in 1871, he soon acquired a considerable reputation as a sound lawyer and brilliant pleader, which he still enjoys, and which has never been outlived by that of any other legal luminary in Australia.

He entered the political arena while still a very young man, and a moderate conservative, and progressive semi-Radical. He was elected to the House of Representatives in 1890, and immediately attached himself to the standard of the "forward" party, and was one of the leaders of the movement to secure federation. He was elected to the House of Representatives in 1890, and immediately attached himself to the standard of the "forward" party, and was one of the leaders of the movement to secure federation.

He was elected to the House of Representatives in 1890, and immediately attached himself to the standard of the "forward" party, and was one of the leaders of the movement to secure federation.

the door of a subscriber.

LIBERAL DIFFERENCES.

If we read carefully the speech made
by Mr. Tarte in Toronto, and compare it
with the speeches made by Mr. Borden
in British Columbia, we are com-
pelled to admit that they are in fact
in the same diamond of truth and
Canadian patriotism. At the open-
ing of the Toronto exhibition, Mr. Tarte
said, among other things:

If they looked to the United States
market, and so created a current to-
wards the United States, it would not
be a Canadian current. When they
try to be a nation or not? (Cheers.)
He did not care about being called a
protectionist or free trader; words had
no value to him; he was too old; it was
a question of business and of making
interest. If they were to make up their
minds to remain Canadians and British-
ers they must do the right thing, while
if they were going to buy \$150,000,000
a year from their neighbors, it meant
that they lost so much national in-
terest that they might create.

Was it not a fact that they possessed
all the raw material necessary to build
up a strong nation? (Cheers.) They
had iron, coal, wheat, lands, fine
harbors, everything to make a great
nation, including the finest water pow-
ers in the world. Why had they not
made more progress in the past? Why
had the American Republic captured not
only the attention of capital, but of the
population of the other continent? It
was because the American Republic had
made a tariff policy and a transportation
policy of its own. Let Canada make
both a tariff and a transportation policy
of their own also. (Cheers.) If their
friends of the Northwest and the Mar-
itime Provinces would understand that,
if they had, at the time of the war,
had, fully made up their minds to re-
main Canadians, they had no reason to
be ashamed of being Canadians and Brit-
ishers. Although they were not as big
as the Americans, and their resources
of the line, they were growing pretty
big—and they were growing with the
full vigor of their energy and of their
hopes in the future of this great coun-
try. (Cheers.) The exhibition was an
accommodation of products of the differ-
ent provinces of the nation, products of
the farm and of the manufacturing in-
dustry; these interests were but one.
They must take care of their own in-
terests. Germany and the United States
took care of their interests, and he
might add England could take care of
herself just as well as they could.
(Cheers.) He did not want to say more,
but what he had said he would say in
the presence of Mr. Chamberlain, just
as he would say it in the Northwest or
anywhere else. The best means of keep-
ing this country under the British flag
was to build up a nation here by the
development of their industries and of
their own great resources. If difficul-
ties arose later on with their neighbors
on the other side, if they were not in-
dependent of them in every possible way,
where were they? Why, he asked, had
they not fleets of their own? They
had their harbors, and it was an easy
thing to have the fleets to use them. He
desired to develop the means of trans-
portation between different parts of the
country; to bind the whole Dominion in
a solid British Canadianism, if he might
so call it. (Cheers.)

This is a striking exposition of the
policy of the Conservative party. It
defines the end to be attained and the
methods necessary to bring it about. It
is well known that during the last ses-
sion of parliament, Mr. Tarte was ready
to reply to one of Sir Richard Car-
wright's free trade speeches, and was
with difficulty prevented from doing so.
Since then Mr. Tarte has been making
himself familiar with many questions of

industry and transportation in Canada,
and he has nailed his colors to the mast,
declaring emphatically for cheap trans-
portation and adequate protection to
home industry as the prime necessities
for Canada at the present time. Mr.
Tarte's declarations, however, have been
received with great hostility by the Lib-
eral press of the country from Halifax
to Victoria, and we have every reason
to believe that the Liberal press, rather
than Mr. Tarte, represent the views of
the Liberal party, when we find the lat-
ter's views to a very large extent coin-
ciding with those of the Conservative
party. We may regard it, therefore, as
impossible that Mr. Tarte should be able
to carry the Liberal party with him in
the policy he has formulated. If he
cannot carry the Liberal party with him
he must leave it. If he did not leave
it, the conditions under which any self-
respecting voter belonging to the Liberal
party would have to cast a ballot at
the next general election would be in-
tolerable. So that whether Mr. Tarte
leaves the Liberal party, as he ought,
or remains in it, as he ought not, his
present attitude is a certain prelude of
Conservative victory at the next gen-
eral election. It is probably for this
reason more than any other, that the
Liberal party organs are so weak with
him. A party which was remained in
power for six years in spite of a glaring
inconsistency between declared principle
and action in respect to the main Cana-
dian political issue, the fiscal policy of
the country, may perhaps be excused for
forgetting that such a condition of af-
fairs is not permanent in its nature, and
for resenting the element in its own
ranks which has emphasized this fact.
But the Liberal party has forgotten that
the National Policy which it could not,
and did not, subvert, is not a dead and
rigid mould in which the destinies of
Canada are cast, but a vital principle
seeking new expression every day as the
country progresses and is developed. As
a consequence, the Liberal party finds
itself either impotent to carry on the
government of Canada upon the lines al-
ready established, and so far as the
past goes, accepted by itself, or obliged
to categorically abandon the principles
it has always professed as the reason of
its existence. This is the definite issue
raised by Mr. Tarte, and it cannot be
avoided. Sir Wilfrid Laurier, it is true,
is a past master in the art of eluding
definite issues. He has been, and is, the
fit and proper head of a government
built upon inconsistency, inconsistency and
compromise. But here at last he has
something to face which all his diplo-
macy cannot smooth over, nor his
rhetoric explain away. His government,
a fine superstructure upon a foundation
of sand, finds itself at the risk of a de-
struction as speedily as its apparent
solidity and permanence were remark-
able. History is likely to be made
quickly in Canada under the new fu-
ture. The country, feeling the impulse
of development and prosperity, is con-
scious now of its vital need of a coher-
ent and rational trade policy, a some-
thing which it was often declared only
the sharp sting of adversity and the loss
and foreign exploitation of its natural
resources would awaken its people to demand.

In any case the high grade copper de-
posits of Vancouver will be developed,
but if the Garretson furnace proves a
success, a remarkable growth and de-
velopment will take place in the very
near future.

A correspondent writes to ask whether,
if a man was divorced in the United
States and afterwards married again there,
his second marriage would be re-
cognized as legal if he came to live in
British Columbia. Of course it would.

The Trades Union Congress in Great
Britain has turned down a proposal to
establish a supreme court of arbitration
in labor disputes by a majority of three
to one. Compulsory arbitration of la-
bor disputes, frequently advanced in this
country as the panacea for all indus-
trial troubles, has not yet been accepted
by trade unionists in Great Britain as
affording a satisfactory solution of la-
bor difficulties.

There are clear indications of a for-
ward movement in the mining districts
of the interior of British Columbia.
These have been going through a period
of liquidation brought about by the drop
in the prices of silver, lead and copper,
which happened to follow a most ridi-
culous over-capitalization of mining com-
panies and inflation of mining stocks.
Now the mining industry has been ac-
commodated to savor conditions. Con-
fidence is restored, production is large,
capital is procurable, and as a conse-
quence, abundant prosperity is at hand.

The differences between the Coeur
d'Alene mine owners and the Lead
Trust of the United States have been
settled. The Lead Trust has conceded
a reduction in treatment charges, and
the railway companies in freight rates,
the combined relief amounting to \$3
per ton of concentrates. This agree-
ment affects the British Columbia pro-
ducers in this way, that if there had
been a complete rupture, and the Idaho
mine-owners had gone into competition
with the Trust, both parties would have
become eager buyers of British Colum-
bia high-grade ore. The fact that this
has not occurred renders it all the more
necessary that the Canadian lead mar-
ket, both for production and consump-
tion, should be rendered entirely inde-
pendent of the United States.

Warnings as to the real condition of
the New York stock market have be-
come insistent. Henry Clews in his last
circular says:

A man becomes an inebriate by get-
ting himself into a condition where he
ceases to recognize effect as following
cause. Under the influence, at times,
of the intoxicating beverage he will defy
both law and order. This is due to the
cautious condition he has allowed him-
self to get into. The stock market of
late has been productive of a similar
condition. It has been with a majority of
people. They have been engaged now
for such a prolonged period in buying,
and buying and buying, making profits
on all their ventures, as to make them
like the inebriate—callous to all adverse
factors whenever they come up. High
prices don't frighten them; scarcity and
high rates for money don't frighten
them; cautionary signals don't frighten
them; cautiousness don't frighten them. Buy-
ing and holding on have simply become
chronic with them. This may not un-
likely continue to be the condition of the
stock market until compulsory liquida-
tion sets in, which the strain in the
money situation may sooner or later pro-
duce.

Sir,—Apropos of the Tourist Association's
delegation to the Minister of Lands and
Works, re encroachments by private in-
dividuals upon the coast line, may I ask, can
anyone build and enclose high down to
the high water mark? For instance, going
along the Oak Bay road or what is properly
called Ocean Avenue, from Mount Baker
hotel towards the golf links, a house has
been erected the only one, I think, on the
left hand side of the road, and it is en-
closed right down to the rocks so that no
one can get past without going into the
sea, and notice boards erected stating that
trespassers will be prosecuted. Now, sir,
not twelve months ago, the footpaths along
the rocks here led to numerous little bays
where one could bathe in comparative pri-
vacy. In fact, there are several such right
along from Oak Bay to the Outer wharf,
but if every one buys a lot is to be
allowed to enclose and erect high water
fences, soon the footpaths along the rocks
will be closed altogether, and the people's
heritage in this respect done away with.
I was under the impression that a certain
distance from high water mark along the
coast line belonged to the people, and no
one had the right to enclose such. I and
others, I am sure, will be glad to know
if this is so. G. M. W.

NORTH WARD.
Sir,—A good deal was said at the time
of the last municipal elections about the
urgent necessity of subdividing this ward
into two wards. Mr. Alderman Graham was
prominent in this matter and took some preliminary
steps in this direction. Now is the time to
get it settled.

NORTH WARDER.
FOURNIER CONFESSES.

But Says La Belle Did the Shooting.

Word comes from Dawson that Peter
Fournier has confessed that he and Ed-
ward La Belle planned the murder of
Leon Fontaine, Guy Joseph Brandon
and Alphonse Constant, who were killed
below Stewart early this summer.
He declares that La Belle did the shoot-
ing, and should be hanged, and that he
only shared in the proceeds of the crime.
He has also given the police the de-
tails of another murder which he, says
he, and La Belle planned and executed
near Circle City shortly after the first
cold-blooded killing. (Gilbert Dufor is
the name of the fourth victim whom
Fournier accuses his partner of having
made away with. Nothing was known
before regarding Dufor's disappearance.)
Fournier's confession followed shortly
on the receipt of news regarding the
statement given out by La Belle, in
which La Belle declared that Fournier
did the killing, and that his sole im-
plicity in the matter was the taking
of a part of the spoil in repayment of a
loan due from Fournier. This loosened

CLEAN TEETH SELDOM DECAY.

Decay can nearly always be prevented by keeping the teeth clean. In other words, decayed teeth are an evidence that the teeth have not been kept clean. Let us recommend to you our CARBOLIC TOOTH POWDER, etc., and our GUARANTEED TOOTH BRUSH, etc. The use of these two articles will keep teeth, gums and mouth sweet and clean and free from germs that cause decay.

CANADIAN PORK
VS AMERICAN

Some Reasons Why the Foreign
Article Predominates in This
Province.

With reference to an editorial in yester-
day's issue, local merchants offered
the suggestion that Canadian houses
themselves are largely to blame if Amer-
ican goods receive the preference. Said
this gentleman: "In the matter of pork
and its products, it is absolutely impos-
sible to secure a first class article from
Eastern houses, and the travelers who
represent houses in that line make no
bones about the matter. They tell us
that the best pork is shipped to the Eng-
lish market as they say they can secure
a better price for it there than they
can out west. We never give any order
for Canadian pork without getting a
guarantee that it will be strictly first
class, and we have had no end of trou-
ble in insisting on this stipulation. So
much so that in some cases it has al-
most resulted in law suits. We have
been in the habit of importing both
American and Canadian pork and have
never had the slightest difficulty as to
the standard of the former, and our
products are here to speak for them-
selves. In ordering we specify exactly
similar conditions, and the result is that
whereas the American pork is as you can
see in prime condition, the Canadian pro-
duct is exceedingly poor looking, and is
absolutely refused by the retail trade."

An investigation of the two brands of
pork revealed the difference, and a com-
parison of the two would be quite suffi-
cient for even the most inexperienced
person. The preference that would be
given the American pork would be the
result of common sense, and would be
thoroughly borne out by the judgment
of men who have been all their lives
handling and curing pork. The Ameri-
can article is more appealing to look
at, while the Canadian pork is in most
cases, if one may judge by appearance,
at from the proverbial root-and-or-
dinary variety of razor-blade porker.

"At one time, pork was purchased
largely in Toronto, but it was simply
impossible to get a decent article," con-
tinued the gentleman referred to, "and
then Winnipeg was tried, but with little
better results. Now a very good quality
is secured at Edmonton, but the fact
remains that the prejudice against the
Canadian article is so great that retail-
ers are known to buy Canadian hams
and bacon under the name of the Ameri-
can products, and this is entirely due to
the poor quality of goods that have been
shipped to this market. Eastern Cana-
dian houses practically control the Eng-
lish market in hams and bacon, and
must put up as fine a quality of those
two lines as any in the world, but they
do not seem to be doing it. It pays to ship
this quality to British Columbia."

"As to American offal fed pork, any
one accustomed to handle pork can never
be fooled on this point. The difference
between corn fed and offal fed meat are
altogether too great for any such trick
to be played in the trade. The Ameri-
can pork used here is imported from
Ontario and is never a slaughter
house until the time it is killed. The
pigs are shipped from the ranch to the
stock yards, and they are not there any
length of time until they are slaughtered.
These animals, and the quality of the
meat, there may be a preference for pork
and on peas, it is a matter of taste, and
the meat of the corn-fed animals is most
assuredly first class."

COEUR D'ALENE MINE OWNERS.

Win Fight Against the Lead Trust.

Mr. Harry White, merchant, banker,
and mine-owner of Wallace, Idaho, is
in Victoria on a visit to his brother, Mr.
Stephen White. Mr. White is heavily
interested in the business of silver-lead
mining in Idaho, and is also a heavy
owner, along with Finch & Campbell, of
Spokane, in the St. Eugene mine at
Mogee, British Columbia. From a tele-
gram received by him today from Mr.
A. B. Campbell, of Spokane, it was
learned that the differences between the
Coeur d'Alene mine-owners and the
American Smelting and Refining company
had been adjusted and that shipment
would be immediately resumed at a re-
duction on the freight and treatment
rate of \$3 per ton. This reduction
means a very large difference of more
than a million dollars a year to the
Idaho mine-owners. Mr. White is a
native of Brockville, Ontario, and is one
of the many Canadians whom the min-
ing development of the Northwest
States has made rich.

WANTS INFORMATION.

"James Bay, Esq., the Point of
Knowledge, Tapped by an Enquirer."

The efforts of the Tourist Association,
the Provincial Bureau of Information,
and the press of British Columbia are
bearing fruit, and every day the name
and fame of the province is spread in
America. A striking illustration of this
benefit derived from advertising
British Columbia and its resources
abroad is furnished by a letter received
at the Provincial Bureau of Information
yesterday, from Ogden, Utah, which is
addressed as follows:

James Bay, Esq.,
Immigration Agent,
Government Buildings,
Victoria,
B. C.

The writer confesses to Mr. James
Bay that he got his address "from a
British Columbia guide book," and vol-
unteers the further information that he
"came here from Australia, but I do not
care for this place much," and is think-
ing of coming to British Columbia to
engage in mixed farming, if assured of
favorable conditions.

It would be interesting to know from
which particular guide book the gentle-
man gleaned the information that
"James Bay, Esq., is the official in-
charge of the Immigration Department,
if such an one exists it would be in order
to submit it to an immediate and care-
ful revision."

All the boys will be at the Cricket
Smoker.

MOWAT & WALLACE,

GROCERS CORNER YATES AND DOUGLAS

Sale of the Stemwinder

New Fairview Corporation Have Definite Offers for the Mine.

Ratification by the Shareholders Required to Complete the Bargain.

A cable from London was received yesterday stating that the proposed sale of the Stemwinder mine has been definitely accepted by an English syndicate. The sale, it is stated, will give the shareholders a return of 100 per cent on their investment. The terms of the sale are understood to be as follows: The purchaser agrees to pay \$800,000 for the mine, \$500,000 in cash and \$300,000 in non-assessable shares of the par value of \$1,000 each. The payments to be made, \$500,000 in cash and \$300,000 in non-assessable shares, are to be made in six months from the date of the sale. The option was given in May last, and the cable advice would indicate that the purchaser is now ready to carry out its agreement without waiting for the expiration of the six months to which he is entitled under his agreement. The purchaser was also given the option of paying cash for the property, and the cablegram is not definite as to which of the two has been accepted. Operations on the Stemwinder have been very satisfactory recently, a large body of rich ore having been struck about two months ago, and mining men express the opinion that the new owners have secured a very valuable property.

Disaster at Thibert Creek

Landslide Destroys Plant and Fills Up the Excavations. Accident Occurred Just as all Was Ready for the Clean-Up.

J. Scales arrived in the city yesterday from Thibert Creek, Cassiar, where he has been employed for some time at the Thibert Creek mine. He reports the occurrence of a very serious accident on August 27, in consequence of which the mine was closed for some time. The accident occurred when a large mass of earth and rock, weighing several thousand tons, came tumbling down the slope, carrying everything before it and completely filling up the excavations. Flumes, sluices, riffles and monitors were dashed to splinters, and everything in the mine was instantly obliterated. The loss by the landslide is very heavy, as up to November of last year the mine had been expended in developing the property, and a great deal of work and many additions to the plant have been made during the present season. The most regrettable part of the accident is the fact that the company had so far progressed with the work of excavation that they were on the point of making a clean up which it was expected would remove them a large portion of their outlay.

Another New Process

Pol-Crossalide Method Said to Be Cheap and Simple.

A few days ago a consignment of less than a car of ore from the Standard mine was shipped to Denver to be treated by the Pol-Crossalide process, says the Rossland Herald. Mr. Pol-Crossalide, who is a chemist, has been for years assaying for the globe smelting works and tested thousands of tons of Standard ore. He believes that his new process will treat it perfectly. The process is a simple one. The crude ore is not concentrated, but is pulverized finely, mixed with salt, and roasted. Chlorine gas is generated from the salt, which carries off the metals in the form of fumes. The gas is treated to separate the various metals, and virgin metal is produced. If the treatment is successful, a plant may be erected in the corner of a lot, and the concentrates, then, too, in shipping the concentrates freight must be paid on about as much waste rock as on the concentrates carry, roughly, about 50 per cent. of lead.

Quilohena Coal

Large Seams Found on Diamond Vale Co.'s Property.

The Similkameen Star reports that diamond drill operations have disclosed six seams of coal varying from 4 to 20 feet in width, which crop on the banks of Quilohena creek, on the property of the Diamond Vale Coal Co. The seams will be kept open during the winter months driving a tunnel on the largest vein, and a small steam plant will be installed.

Proposition Accepted

Syndicate Resumes Operation on B. C. M. & M. Co.'s Property.

The syndicate represented by Mr. Atkins of Barkerville, who recently acquired an option on the property of the British Columbia Milling & Mining Company at that place, are now at work pumping the old workings out, and expect to have the mine clear of water by the end of the month. Their option gives them the privilege of excavating the mine as soon as it is clear of water, and should investigation prove satisfactory, the syndicate are to pay the company \$75,000 for the property, which includes a complete fifteen-stamp mill and other machinery.

Mining Notes

W. F. Ferrier, M. E., has returned from Alberni, where he went to examine and report on the Golden Eagle mine. James B. Miller, M. E., has returned from the Pacific Coast Smelting & Refining Works of San Francisco, who has been in the city for several days, left for Vancouver last night. He will return by way of Nanaimo and Crofton where he will visit the new smelter. Mr. Miller's firm was the first to manufacture blister copper on this coast.

An important resource that promises to be of great commercial value is found in connection with the coal in this district in the shape of an excellent fire clay that approaches very closely in quality the best Scotch and English clays. A seam between two and three feet in thickness has been exposed in the tunnel the Vermilion Forks Mining & Development company have driven on their large coal-carrying near the Similkameen bridge, an assay on which was made by the firm of Pelletier-Harvey, Bryant & Gilman, of Vancouver. Similkameen Star.

It has been decided by the directors of the Homestake mine to resume operations in the near future, before the 15th of next month at the latest.

A force of 50 men are now at work on the Venus mine, four miles from Nelson, and terminals for a tramway from the mine to the Athabasca mill are in course of construction. The property is expected to be a steady shipper this winter.

The Age of Brain Work

"In these days, half our disease comes from the neglect of the body in the overwork of the brain. In this railway age of wear and tear of labor and intellect go on without pause or self pity. We live longer than our forefathers, but we suffer more. They fatigued only the muscles, we exhaust the nerve strength of the nerves." Dr. Chase's Nervine is the greatest remedy of this age because it is well adapted to the needs of the present day. It restores and revitalizes waste nerve cells and makes the weak and exhausted strong and healthy and vigorous.

RIPAN'S

Ripans Tablets are the best medicine in the world. There is scarcely any condition of ill health that is not benefited by the occasional use of a Ripans Tablet, and the price—10 for 25 cents—does not bar them from any home or justify any one in enduring ills that are easily cured. A family bottle containing 150 tablets is sold for 60 cents.

For Sale by Druggists. The Five-Cent packet is enough for an ordinary occasion. The family bottle contains a supply for a year.

In a city not subject to earthquakes there lived a family who had one of these domestic of the break-everything-they-touch sort. Recently the town experienced a slight shock. Pictures were thrown down, crockery and furniture rattled about. In the midst of the tumult the mistress went to the head of the stairs and called out, "In a would-be patient home: 'Mary Ann, what are you doing now?'"

MEETING OF HOSPITAL BOARD

Directors Meet and Transact the Usual Business For the Month.

A meeting of the Board of Hospital Directors was held at the hospital last night, with President Holland and Messrs. Wilson, Helmecken, Brett, Day, Lewis and Humphrey present. The medical officer reported that the number of patients received during August was 62, the number treated 102; total day's stay, 1,520; daily average cost, \$1.53, as compared with \$1.52 for the same month. The committee reported that the number of patients acknowledged donations from Mrs. H. D. Helmecken, Mrs. Rocke Robertson, Mrs. Joseph Wrightsford, Mrs. Braverman, Mrs. Rich, Mr. Walker, J. E. Taylor and Harold Burnett. The committee also reported that the number of patients acknowledged donations from Messrs. F. Sere and Geo. Dean and reported that there was about 1,550 pounds of jam on hand. He asked for two weeks absence, which was granted.

The Finance committee reported that they met at the hospital on Wednesday, September 17, 1902, with Messrs. Day, Braverman and Brett present. Accounts for July, amounting to \$1,524.70 were examined, and approved for payment. The committee also reported that the number of patients acknowledged donations from Messrs. F. Sere and Geo. Dean and reported that there was about 1,550 pounds of jam on hand. He asked for two weeks absence, which was granted.

The House committee reported having met at the hospital on Tuesday, September 16, 1902, with Messrs. Helmecken, Humphrey, Wilson, Forman and Davies present. The committee asked further time to give an opinion on the doctor's report. The committee also reported that the number of patients acknowledged donations from Messrs. F. Sere and Geo. Dean and reported that there was about 1,550 pounds of jam on hand. He asked for two weeks absence, which was granted.

The report of the Executive Council relative to the agreement with the French Benevolent & Mutual Society provided that three representatives of the society be placed on the Board of Directors and all members at the time of the agreement in April, 1891, be left members of the hospital, entitled to the privilege of a first class patient, and to burial at the expense of the hospital in the event of death. In return the property of the association was transferred to the Board. A discussion arose regarding one of the members of the society now at the hospital, believed to be incurable, and it was resolved that Dr. Hasell confer with Dr. Hall, who was treating him, regarding the patient being requested to leave the hospital, it being believed that he was incurable. Dr. Fagan, secretary of the British Columbia Physicians and Surgeons, wrote to the effect that whereas medical examinations to qualify for practice in British Columbia are held twice a year in Victoria, and it is usual in such examinations to test applicants at the bedside, as to their knowledge of disease he had been requested by the board of examiners to apply for permission to use the available material at the hospital. The medical officer stated that complaints had been made by doctors regarding candidates examining their patients. It was decided to grant the necessary leave, subject to the supervision of the medical officer.

The meeting then adjourned.

You can try it. FREE.

Every mother who sends us her address on a post card will receive a generous free sample—enough for eight meals—of

LEEMING, MILLS & CO., MONTREAL.

Notwithstanding the popular impression that French shipping is enjoying a boom under the Bounty Act, European journals are authority for the statement that 2,400 men employed by the St. Nazaire yards have been laid off. One of the largest French sailing ship companies, the Compagnie des Voiliers de St. Nazaire, is said to be in a condition far from prosperous, despite the bounties.

In his report on the trade of Shimoda and Moji for 1901, U. S. Consul Playfair states that the ships entering the two ports last year totaled 2,274,005 tons, or 22,127 tons more than in 1900. British shipping showing an increase of 65 vessels, and 105,147 tons, and German shipping one of 16 vessels, and 47,078 tons. The consul states that the ports are most frequented by vessels other than mail steamers, loading coal, being on the direct route from Yokohama to Shanghai, Hongkong and Singapore. Coal is cheap and abundant, and loading is very expeditious.

No! No! No! No!

This word is used four times by Prof. W. V. Hodgson, Ellis, Official Analyst to the Dominion Government, in reporting the result of his analyses of Sunlight Soap.

"No unsaponified fat"; that means no waste.
"No free alkali"; that means no damage to clothes or hands.
"No loading mixture"; that means every atom is pure soap.
"No adulteration whatever"; that means pure ingredients.
Try Sunlight Soap—Octagon Bar—and you will see Prof. Ellis is right. He should know.

Str. Kintuck

Reaches Port

Brings Steel Rails and General Merchandise From the Old Country.

Another Line Is to Be Added to Vessels Plying Across Pacific.

Steamer Kintuck, of the China Mutual Line, now affiliated with the Doddwell Line in the Oriental trade, arrived at the outer docks yesterday morning to discharge 400 tons of general cargo, including hardware, steel rails, fish plates and general merchandise from England and Belgium for Victoria and Vancouver consignees. The steamer landed 100 tons of steel rails consigned to Vancouver for the street railway company. She had in her cargo over 3,000 tons of rails, which it is said were originally intended for this port, but the consignments has since been purchased on behalf of a Portland firm for use in railway work in Oregon, and they will be discharged at Tacoma. The Kintuck also carries a large amount of freight from England for United States points. She brought little Oriental cargo, as the steamer Tacoma, which is due here tomorrow from Yokohama, left about the same time, and cleaned up the cargo at Chinese and Japanese ports. The Kintuck had a very smooth passage from Yokohama. She sighted the out-bound Northern Pacific steamer Olympia, which sailed from Tacoma on Wednesday, off the Point Sound, and the cable steamer Colonia was seen entering Barkley Sound. The Kintuck leaves for Tacoma this morning. During the voyage a day out from Hongkong, a Chinese fireman jumped overboard and was drowned.

The Northern Pacific line, which operates the Doddwell and China Mutual lines, and the Great Northern Steamship Company, which controls the business of the Nippon Yusen Kaisha line, are to have new rivals from Portland in the trans-Pacific trade. The fact that much of the ocean traffic to the Orient is being diverted by the Burlington to the Great Northern and the Northern Pacific, the Union Pacific, the Great Northern, the Line Company, which it controls, has decided to begin an active fight to secure the carrying trade between the Pacific Coast and China, Japan and the Far East. The first step will be taken at a special meeting of the shareholders of the Oregon Short Line to be held at Salt Lake on October 9. An amendment to the articles of association will be submitted to empower the company to "construct, acquire, lease, purchase, lease or otherwise, and to maintain, operate, ferries, ferriboats, steamboats, steamships, warehouses and other property appurtenant to the business of ferries or of navigation. Also to engage generally in the business of transportation upon the navigable waters of the United States or of other countries and upon the high seas, and to purchase or otherwise acquire and guarantee the capital stock of any company, and to assume any other obligations of any company having power to engage in such business or engaged therein."

Through its control of the Southern Pacific, the Union Pacific at present handles a large proportion of this business, the former being heavily interested in the Pacific Mail Company, the Occidental & Oriental Steamship Company, and the Portland & Asiatic Company, but in view of the activity of the Northern lines since the merger in drawing away this traffic, the Harriman interests have deemed it advisable for the Short Line to enlarge its powers. The Great Northern is at present building two immense steamships to operate between the Pacific and the Orient, and is making a big bid for the business of carrying trade between these ports. Recent statements of the earnings of the Northern roads show increases in their traffic of between 20 and 30 per cent. in gross, while the Union Pacific reports show but nominal advances. Therefore the enlarging of the charter of the Short Line to include the operating of steamships is thought to presage an active move on the part of the Union Pacific to maintain against the Hill roads its position in the trans-Pacific carrying business.

ANOTHER SUGAR STEAMER.

Dutch Steamer Amsterdam En Route to Java to Load for Vancouver.

Another sugar steamer has been secured by the British Columbia Sugar Refinery of Vancouver, to load sugar at Java, to follow the steamer Linden, which is expected to arrive about three weeks hence with her cargo. The newly chartered steamer is the Dutch steamer Amsterdam, Capt. Bakker, which sailed from the Tyne on August 13, bound to Samarang and Surabaya, Java, to load, and thence via Moji, Japan, to Vancouver.

FOR THE NORTH.

Steamer Tees Starts on Her Regular Voyage to British Columbia Ports.

Steamer Tees, Capt. Hughes, sailed last night for Massett, Naas and way ports on the Northern Coast. She had an average cargo of lumber, including several Northern residents returning from a visit to the Capital. Her cargo included some large lumber shipments from local mills for Massett. The steamer calls but twice a year at the mill, which is expected to open in the fall, and the mail for the six months will be taken to the residents. The vessel will not call at Skidegate on this trip, as she went there on her last voyage.

MARINE NOTES.

Notwithstanding the popular impression that French shipping is enjoying a boom under the Bounty Act, European journals are authority for the statement that 2,400 men employed by the St. Nazaire yards have been laid off. One of the largest French sailing ship companies, the Compagnie des Voiliers de St. Nazaire, is said to be in a condition far from prosperous, despite the bounties.

In his report on the trade of Shimoda and Moji for 1901, U. S. Consul Playfair states that the ships entering the two ports last year totaled 2,274,005 tons, or 22,127 tons more than in 1900. British shipping showing an increase of 65 vessels, and 105,147 tons, and German shipping one of 16 vessels, and 47,078 tons. The consul states that the ports are most frequented by vessels other than mail steamers, loading coal, being on the direct route from Yokohama to Shanghai, Hongkong and Singapore. Coal is cheap and abundant, and loading is very expeditious.

No! No! No! No!

This word is used four times by Prof. W. V. Hodgson, Ellis, Official Analyst to the Dominion Government, in reporting the result of his analyses of Sunlight Soap.

"No unsaponified fat"; that means no waste.
"No free alkali"; that means no damage to clothes or hands.

"APENTA"

The Safest and Most Reliable Household Aperient.

The RICHNESS of APENTA WATER in natural saline aperients renders it the most valuable and safest laxative and purgative.

PROVINCIAL GAZETTE NOTES

Change in Dominion Regulations Regarding Homestead in Railway Belt.

Yesterday's issue of the provincial Gazette contains notices of the appointments of Neil McCallum, of Beaver, to be a justice of the peace in and for the county of Arthur Langton Lazenby, of Port Hammond, to be a justice of the peace in and for the province; Samuel Angus Macfarlane, of Lillooet, to be water commissioner for the town of Lillooet, and George Ward DeBeck, of Aert Bay, India agent, to be a registrar for the purpose of the Marriage Act.

Under the provisions of the Benevolent Societies Act, the Lieutenant-Governor, by order in council, has approved of the change of the corporate name of the 'Mainland Steamshipmen's Protective and Benevolent Association,' to that of the 'British Columbia Steamshipmen's Society.'

The regulations and form of application for an examination of candidates for the civil service of India to be held in London in August, 1903, can be seen at the office of the Provincial Secretary. If open competitive examination for the following services, viz.: Eastern cadetships in the colonial service; clerkships (Class I) in the Home civil service; should be held in 1903 concurrently with the open competitive examination for the civil service of India, candidates duly eligible in respect of age will be admitted to compete for any two or all three of these services, subject to certain conditions, which can be obtained at the Provincial Secretary's office. Candidates who may desire to enter the competitions for the Home and Colonial services should apply about Easter next to the Secretary, Civil Service Commission, Burlington House, London, W. for the prescribed forms of application.

The Northwestern Hydraulic Mining Company has ceased to carry on business within the province under its certificate of registration, and the power of the company to carry on business within the province has been revoked and cancelled. Under clause 13 of the regulations for the survey, administration, disposal and management of the Dominion lands within the province of British Columbia, established by order in council on September 17, 1890, the right to homestead is restricted to persons who have not heretofore had a homestead or Dominion lands in the Dominion of Manitoba or the Northwest Territories, or do not hold or own by pre-emption record, or otherwise under the laws of the province of British Columbia, more than one hundred and sixty acres of land within the Dominion. And under clause 43 of the Dominion Lands Act a homestead in Manitoba or the Northwest Territories, who had on or before June 2, 1889, obtained a homestead or Dominion lands in the Dominion of Manitoba or the Northwest Territories, is entitled to make a second homestead entry for Dominion land in Manitoba or the Northwest Territories. The Lieutenant-Governor-General in Council has ordered that clause 13 of the regulations for the disposal and management of said lands be amended so as to permit any person who would be entitled to a second homestead entry under the circumstances above mentioned to exercise that privilege within the railway belt in British Columbia.

Perence F. Curran and Oswald S. Walker, merchants of Grand Forks, and Samuel McPherson, merchant tailor of Vancouver, have assigned.

Messrs. Lequime & Powers, saw-millers of Midway and Grand Forks, have dissolved partnership. Mr. Powers will continue the business at Midway and Mr. Lequime that at Grand Forks.

The following companies have been incorporated: East Kootenay Placer Mining Company, limited, capital \$50,000; to acquire, by purchase or otherwise, the placer mining leases and water rights of Albert Banks, Emil Banks, Saul Bonnell, William Boderick Ross, Leila Ross, and James Ross, all of which are situated on Perry creek, in the district of East Kootenay, or elsewhere in British Columbia.

The Vernon Rink Company, capital \$200,000, to construct a skating and curling rink at Vernon.

The Woodward Department Stores, limited, capital \$75,000; to purchase and acquire the business heretofore carried on by Charles Woodward, general merchant, Davidson Bros., jewelers; R.G. Buchanan & Co., house furnishers.

The Revelstoke & McCulloch Creek Hydraulic Company, limited, capital \$25,000; to acquire or otherwise, the placer mining leases known as the Ophir, Last Chance, Columbia, Whistler, and Gold Bird, all situate adjoining each other on McCulloch creek, in the Revelstoke district of Kootenay.

The Phoenix Electric Lighting Company, limited, capital \$50,000; with the usual powers conferred on such companies.

The Ladysmith Water Company, limited, capital \$100,000; to operate a water system in and about Ladysmith.

THE STRAND HOTEL.

Has been remodelled. All newly furnished, one block from depot. European and American plan. Prices moderate. J. S. Wood, proprietor.

Read the Army & Navy Clothing Store's ad. on page five.

Don't forget to buy your ticket for the Cricket Smoker.

NEW DEVICE.

If You Get the Right Article, the Price Cuts No Figure, the Great

Majestic Range

IS THE ARTICLE. It is a thing of Beauty, Usefulness, and Durability. We can give you the names of hundreds of Victoria housewives who use them with ENTIRE SATISFACTION.

Geo. Powell & Co. CHEAPSIDE 127 Government Street. Victoria, B.C.

This Store Is a Bargain Store Every Day

In this store every day is a bargain day. We do not content ourselves with making special efforts in a few loudly heralded lines, but every nook and corner of this store, from end to end is prolific in the best kind of values. That's why Victoria's best shoppers consider this their bargain headquarters.

Today's Great Flannelette Shirt Bargains

We snapped up a chance yesterday to buy 10 dozen heavy, best quality flannelette top shirts, at exactly half price, and are going to give our customers the best kind of a shirt bargain. These shirts are brand new, extra large, splendidly made, and are actually worth \$1.00 each. Today your choice for 50 cents. The patterns are good and first comers will find all sizes.

Wonderful Bargains in Boys' Clothing

Notwithstanding the wonderful selling of the past few days, assortments are still very complete, your getting the best clothing made at sweeping reductions from regular values.

At \$1.50, \$2.00 and \$2.50 you buy our regular \$3, \$3.50 and \$4 suits at \$2.00, \$2.50 and \$3.00. You get vestee suits worth \$3.70, \$4.50 and \$5.25 all sizes.

Men's Linen Collars, 10c

Who ever heard of men's all-linen collars for 10 cents? Well that's our price for a pure all linen collar, any size, any shape (except Hilo collars) and any style.

Men's Heavy Woolen Underwear, Cheap

All wool fleece underwear, 50 cents. It's like finding it. Last year you paid 85c. and \$1.00 for wool fleece. All wool knit undershirts, 50c. and 75c., better value than you ever had before, and better value than any other store can give you. You'd buy it readily at 75c. and \$1.00.

Dogskin Driving Gloves, 25c

About three dozen dogskin driving gloves, slightly damaged by coming in contact with a damp wall in our store; a few spots on the leather, in some cases hardly noticeable; regular price 75c. and \$1.00; today 25 cents each.
